

Learning from the Non-Profit World?

Rick Wartzman

Stefan Wallner

Christian Horak

Liisa Välikangas, Chair

Discussion:

1. Why is social entrepreneurship on the rise today? What does it suggest about the ongoing change in our societies? What is its promise, if any, in making the world a better place?
2. **What compelling examples of social entrepreneurship have you witnessed or participated in?**
3. What is the role of management Best Practice (or professional management practices) in nonprofits? Its appeal? Its potential negatives?
4. **What kind of management innovation might be needed to tie commitment to Mission and Management practice better together?**
5. What is your vision for nonprofit development in the near future?
